

Gearenc manufactures HERRINGBONE GEARS AND PINIONS for pumping units, mud pumps, and other oil field and industrial applications.

These gears and pinions meet the standard of high quality that has been expected of all Gearenc products since 1927. Unlike some gear manufacturers, our pinions are specially heat-treated to ensure that the proper hardness required for long life is attained.

MAXIMUM CAPABILITIES

PITCH DIAMETER	72"
FACE WIDTH	18"
DIAMETRAL PITCH	2-1/2

Replacement gears and pinions for most name brand pumping units and mud pumps are kept in stock for immediate delivery.
